

Model 218

SOFT SERVE FREEZER
SINGLE FLAVOR, TABLE MODEL
GRAVITY FREEZER, FULL STAINLESS STEEL

Features

Offer all the popular soft serve variations from low or non-fat ice cream to custards, yogurt and sorbet.

Freezing Cylinder

One, 1.7 liters

Mix Hopper

One, 8 liters.

Separate hopper refrigeration (S.H.R.) Maintains mix below 7 °C during Mix Refrigeration modes.

Indicator Lights

When the Mix Low light is "ON", alerts operator to add mix.

Electronic Controls

The microprocessor controls that regulates refrigeration by measuring product viscosity to maintain consistent quality.

Weight	kgs.
Net	100
Carton	115

Volume	0.36 CBM
--------	----------

Dimensions	Net(mm)	Carton(mm)
Width	450	515
Depth	700	775
Height	750	900

Electrical	Maximum Fuse Size	Minimum Circuit Ampacity	Poles(P) Wires(W)
220-240/50/1~	16	7.5	3P 3W
220-240/60/1~	20	9.0	3P 3W
220-240/50/3~	16	7.5	/ 5W
220-240/60/3~	20	9.0	/ 5W

Note

Continuing research results in steady improvements; Therefore, these specifications are subject to change without notice.

Specifications

Electrical

One dedicated electrical connection is required. See the electrical chart for proper electrical requirements.

Manufactured to be permanently connected. Consult your local SpaceMan distributor for cord & receptacle specifications as local codes allow.

Beater Motor

One, 1.0 HP.

Refrigeration System

Main refrigeration:
One compressor: 3150 BTU/hr.

Separate hopper refrigeration (S.H.R.):
One compressor: 420 BTU/hr.

(BTU may vary depending on compressor used.)

Air Cooled

Minimum 152mm on both sides and place the back of the unit against a wall to prevent recirculation of warm air. Minimum air clearances must be met to assure adequate air flow for optimum performance.
